HONGKONG, TUESDAY, JUNE 26, 1824.

Sin William Robinson's despatch to the Secretary of State, dated 20th instant, and published last evening, gives on the whole a fair idea of what has been done to battle with the Plague since that dire disease was accidentally discovered to be in our midst. As for the measures adopted to prevent its introduction, or the steps taken to discover its existence, these will not be found referred to at great length in the Governor's despatch. In the extract from His Excellency's speech in Council forwarded to Lord Ripon, the reference to the Governor's ignorance of the existence of even one insanitary house also judiciously erased. These and other matters will have to be gathered by the Colonial Office officials from the criticisms and comments of the local newspapers, and the record may be then a the liver. The assassin is an Italian named little more complete perhaps than if the Banto, who refuses to divulge his motive. Home people confined themselves to the matter contained in the ten despatches which seem to have gone forward from the Government Offices here. It is unnecessary to follow the Governor's explanation of what we have, already described as the official blunders in dealing with the Plague crisis. His Excellency has made his statement, and from it the fact becomes apparent that Canton. Had this firm attitude been less easily arrived at. In the meantime steadily maintained, there need have France is sending a large force to the been little or no exception taken to the Ubanghi region of the Congo. Governor's management of affairs. As it was not maintained, the position which we have taken up remains unshaken. 'As to the origin of the bubonic plague, His Excellency says

numerous theories exist. In one des-

patch the Governor had given his adhe-

sion to one prevalent theory, that it had

been introduced into the Colony from

Canton. The despatch under notice in-

clines to the theory that the seven-

months' drought, the filthy habits of the

Chinese, and deficient (though im-

produce and develop the disease. As

a correspondent has pointed out in

of the outbreak. 'Colonist' makes special reference to the now notorious cesspool of a drain manufactured by some official who is either nameless or unknown. The Governor makes no special allusion to this serious defect, although Mr Francis, at the Sanitary Board mosting the other day, made a reference to it in those incisive terms for which the Queen's Counsel is celebrated. In the despatch, His Excellency observes .--As regards the existing drainage and water works and their completion and extension your Lordship will no doubt consult Mr Cooper, the Director of Public Works, who is now on leave of absence in England and who can give you the fullest and most reliable information in respect to those subject.s' This remark implies that Mr Cooper will not return to duty here so carly as is generally believed, for, if he is to give the fullest and most reliable information' to the Colonial Office after this despatch renches Home, he cannot return to his duty here before the end of August. One word as to the Governor's remarks upon the commercial and financial aspect of the plague. This portion of the despatch contains the best summary of the serious effect upon the Colony of the outbreak which has yet appeared, and we must congratulate His Excellency upon his effective handling of this part of his subject. In view of the vast loss to commerce, to industries, to property, and to revenue, the Government is quite justified in ranking this terrible visitation as an unprecedented ed by remedial measures, not to mention the cost of dealing with the actual plague itself, fully justifies His Excellency in reminding the Secretary of State that an appeal may hereafter be made for help and consideration from the Home Government similar to that extended to Mauritius about two years ago. The help might take the form of a loan upon easy terms, and the 'consideration' might fairly be shown by a reduction of the Military Contribution to the old figure for a period

EVERY man who still desires to see law and order maintained throughout the world-and we believe the large majority of men cling to that old-fashioned principle—will be shocked to learn that President Carnot has been done to death by an assassin. But few details have been given of this cruel outrage, and no notion can yet be formed as to the motive which led the cowardly murderer to take the life of the President of the French Republic. It is true that troubles have arisen at intervals between Italian and French workmen; but these have been arranged with a fair amount of success, and cannot; we think, be considered as a satisfactory explanation of so cold-blooded a deed. More probably, the motive is the one now so painfully common throughout Europe-the cry of the Anarchist, 'Down with everything! down with Government, order, law, property, and even Society itself.' That the miscreant, who just escaped lynching at Lyons after his bloody work was done. happens to be an Italian matters little. Anarchism has no nationality, as it wars against the entire human race. Even the use of the dagger does not make it less likely to be the act of a dynamite-using anarchist. Bomb-firing has been receiving a check of late, and in several instances the bomb-Shanghai Banking Corporation, aged 24 thrower has been the sole victim. However, whatever may be the insane motive, the civilised world will join in one genuine expression of regret that one who perhaps of all public men in France was least likely to invite enmity. has been selected as the martyr to such fanaticism. The deed may, however, lead to the adoption of more severe and wholesome measures in dealing with the advocates of wholesale murder and assassination who appear now to run riot throughout Europe.

FOOCHOW NOTES.

Some absurd rumours which have lately got abroad oblige us to touch upon a sub ject we would rather have left alone. The whispered rumours are to the effect that the Hongkong epidemic disease has reached this port. As such is the case we are glad to be in a position to state on information from the best possible sources that these rumours are false. . The whole country is unusually free from disease of any kind. This same information comes from Dr Underwood regarding the country round the Pagoda Anchorage.

Precautions are being taken against the possibility of the plague being brought to this part—at any rate by any British vessel. All vessels of this nationality must provide themselves, if coming from Hongkong. Swatow, Amoy or other southern ports of China with certificates signed by the examining dectors of those ports. The captains are to inspect all the crews and passengers of their steamers or sailing ship before entering the river and the yellow flug is to be hoisted in the exect of any suspicious looking person being discovered. The vessels on arrival will be boarded by Dr Underwood who is empowered to remove any person on board with symptoms of a dangerous disease. Should thembor of the crew or passenger who shows such symptoms be Chinese he will be taken to a Joss-house, and the authorities will consult with the Vice-Consul and Doctor as to what may best be done with such cases. It is certain that the worst act that congress is capable of passing, and it has considerable capacity in that direction, could not harm American industry so much as the state of uncertainty that the country has been kept in high position of a few years ago in complant is commercial prosperity.

A PLAG INCIDENT. St. Thomas, May 25. - A flag incident cocurred here last night, a number of men belonging to the Queen's Own Rifles. Toronto, whose regiment had come here to spend the holidays, tearing down an American flag which was hanging in front of U.S.

Consul Wild's office. Washington, May 25.—The State Depart. ment this afternoon, received a dispatch from Consul General Riley, at Ottawa, stating that the Canadian authorities officially disavowed any knowledge of the alleged insult to the American flag at St. Thomas, Ont., and gave him assurances that an investigation into the affair had already been instituted by the police. The consul says the occurrence was probably the act of some irresponsible individual, and in nowiss reflects the Canadian feeling.

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY. THIS Review, which was intended to meet the wants of many students of Chinese

caused by the discontinuance of 'Notes and Queries on China and Japan,' has reached its Twenty-first Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person con-nected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China

Mail Office. The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points.

The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Massra Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor, -all well-known names, indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per annum, postage included - payable in ad-Orders for binding volumes will promptly attended to; Address, 'Manager, China Mail Office.

of interest and value.'-North-China Herald. 'The China Review for September-October fully maintains the high standard of excellence which characterises that publication, and altogether forms a very interesting and readable number. teorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries

the number. -H.K. Daily Press. Trubber's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors . . Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was may receive the support necessary to insure te continuance.
